DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 54-59 are rejected under 35 U.S.C. 102(e) as being anticipated by Patel (6405809).

Patel teaches a method of electrically logging a well which comprises the use of a water in oil type emulsion, wherein the oil phase contains a polar organic liquid having an electrolytic salt contained therein, which would have a dielectric constant and conductivity within the scope of the present invention (see claims 1-12).

Art Unit: 1712

3. Claims 23, 24, 25-33, 37, 39, 40, 44, 45, 50 and 51 are allowable over the art of record.

4. Applicant's amendment has overcome the rejection of the previous office action. A new rejection is presented in this present office action.
